

StoneCUT® MILL MASTER

CNC MACHINE, SAW AND MILLING UNTIL 1.100MM, 5 AXIS,
WITH VISION

Up to 1.100mm
diameter saw

Turning 5 axes columns

Automatic tool exchange
system: SAW + MILL

Key Benefits

- ▶ Maximum effective useful area: 3.500 x 2.000 mm
- ▶ Maximum speed: 30 m/min
- ▶ Vertical useful stroke: até 1.000 mm
- ▶ Diamond saw until 1.100 mm
- ▶ Artificial Vision System to:
 - Automatically acquire material position
 - Save time & reduce waste by accurate part nesting
- ▶ Real time speed control
- ▶ Cuts in any angle or curve
- ▶ Automatic tool exchange
- ▶ Tool storage up to 30 tools
- ▶ Working base, 100% non-corrosion material
- ▶ CNC lathe with axis interpolated (optional)
- ▶ Online technical support

Applications

- ▶ Granite
- ▶ Marble
- ▶ Slate
- ▶ Limestone
- ▶ Compact artificial materials

Vision System Advantages

According to customers experience the **Vision System** may:

- reduce **60%** of setup downtime;
- increase in **20%** the raw material yield.
