

# StoneEDGE

CNC EDGE POLISHING MACHINE WITH  
AUTOMATIC TOOL EXCHANGER

Automatic tool storage

Feeding table

Polishing system

## Key Benefits

- ▶ Standard useful area: 3.200mm
- ▶ Vertical axis with automatic break
- ▶ Angle of rotative axis: 180°
- ▶ Automatic tool exchange
- ▶ Tool storage, up to 7 tools
- ▶ Vacuum system
- ▶ Programming of polishing routines per material type
- ▶ High accuracy: 0,1mm
- ▶ Tool rotation electronically controlled
- ▶ CNC system based entirely on computer
- ▶ Working base with 100% non-corrosion material
- ▶ Online technical support

## Applications

- ▶ Granite
- ▶ Marble
- ▶ Slate
- ▶ Limestone
- ▶ Compact artificial material

## Profiles

In addition to the pre-programmed profiles, the system allow the programming of new profiles by the operator.

Profis pré-programados
